The classes aren't too hard even though we are without books and in with the others who have been at it for three weeks already. Physics will take time though for it is almost entirely new.

If you noticed ^{my address} you saw section C-1 added. That is the middle section and the one which is scheduled at present for roughly ten more weeks before shipment to Texas.

I got Bernice's letter to Morningside and your airmail of the 10th yesterday for the first mail in two weeks. It was really welcome.

Did those things I asked for get sent off yet? Can mother get anymore writing paper like this?
It's ten of ten now, at which time lights go out, so I'll have to close.
