RALPH L. MINKER
Superintendent

Ferris Industrial School of Delaware

BOX 230

Wilmington, Delaware

Friday evening,
the 16th of April,
1943.

Dear Lee:-

I was very much pleased to note that Ben Schwartz, a class-mate of mine at B.U.S.T., is Chancellor of the University. I hope you get a chance to introduce yourself to him. If you get any newspaper published in Lincoln on Saturday or, for that matter, in any other part of the State, send me a copy of it. I might find the name of someone I know and whom you might have a chance to visit with.

Mother and I stop at the postoffice late each night ~~looking~~ to bring mail out in the hope, of course, of getting a letter from you. You see mail is just as much an event on this end as on yours. Every move you make means a great

deal to us all, and we follow everything you write as closely as we can. You are everything to us and all of us are pulling for you every minute.

I get some interesting letters from Ferris boys. One came this week for Steve Pavlik whom you may remember ^{and he} says: "I read in the paper that Lee is in the air force. I hope he is making out fine." Joe Hobbs - "skunny Joe" goes for his physical on Monday. Nick Caserta left two weeks ago. Arthur Stille is on the casualty list from North Africa.

Your schedule is a beauty. I had a good laugh over it. They don't leave much time for standing around.

Keep in good shape -
and the best to you always!

Dad -
