

Saturday evening

April 28, 1945

Dear Dad,

Have you had a chance to take a look at the Blue Rocks in spring training yet? When does their season begin in the Interstate Baseball League this year?

What are Wilmington's prospects? I notice that the Philly Blue Jays are starting the major league season at the bottom again and the A's are enjoying a spring spurt so Philadelphia baseball is the same as usual.

What do you think of the election of Senator Chandler as Baseball's Tsar? The

only stir caused here was over the \$50,000.00 salary.

What is Dutch Dorman going to do this year by the way?

I think I have a fifty-fifty chance of being able to see some games with you this summer.

I received the February

issue of the Dickinson
Alumina today. It is too
bad that President Prettyman
(who seems to have made
such a good start) and Dr.
Thompson are so sick.
Dickinson seems to be
passing through the war
in good shape but as yet
there seems to be no
plan for postwar physical
expansion, curriculum
revision or soldier college
return. I definitely want
to go back.

The San Francisco
Conference of the United Nations
has started. The hopes of
many of us are with it.
The Russians and Americans
have met in mid-Germany
and are proceeding to mop
up the last of Germany.

Recently at the Provost
House Mess a fellow came
up and introduced himself
as Bill Ulrich of Wilmington
and Grace Church. I vaguely
remembered him so we had
a pleasant chat. He is a B-17
navigator. Also - received a letter from
Major Kendall
Yours,
Lee
