United States Army Air Corps

Tuesday noon

February 8, 1944

Dear Mother,

Because of class 44-B graduation festivities I have quite a bit of free time today between times of marching in review and listening to speeches. However I will fly tonight.

You have probably received my letter on uniforms by now and have seen how much my purchases agree with the advice of Captain Daunt. I bought the trench coat because I must either have it or a short coat before leaving this field. It sounds like a good idea to purchase extra clothing at the NCAAB. What about summer uniforms?

Please forget the long distance call this month. With my schedule I really don't have the time.

I'll see what I can do about extra furlough time.

Could you send some red roses to Julia for Valentine's Day.

Can you use 616 film?

Yours,

Lee
