Officers' Club

Roswell Army Air Field

Roswell, New Mexico

Sunday noon

May 7, 1944

Dear Shirley,

I have now completed the regular B-17 transition training but prospects for the future are uncertain. 44-4-B class boys are still waiting for shipping orders so it seems as if our schedule will continue right on through so that we will not become rusty while waiting for our shipping orders. The cross country scheduled for last weekend was cancelled by the way.

The last two days have been a sample of what to expect in the line of summer weather in New Mexico. The temperature has been up to 95° F.

While flying yesterday I

2

tuned in the Kentucky Derby on the liason [sic] radio set. Often while flying we listen to the powerful liason [sic] receiver. We can receive all regular channel United States stations and all short wave stations as well. The St. Paul regular station, the San Francisco government short wave station and Tokyo radio transmit the most popular programs. Tokyo Rose offers the best music and most amusing comments.

I hope you and Bernice have a good weekend together.

Love,

Lee
