Sunday evening

Dear Bernice,

Tardy graduation congratulatory! I am glad to hear that you have been accepted at Centenary College too.

I am still just waiting around over here. Mighty monotonous! What are your activities this summer?

Recently saw Experiment Perilous, (George Brent, Heddy Lamarr [sic]; average), and read Life With Father (very amusing) and Runyon a la Carte (very good Runyon).

Yesterday four of us bought some strawberries and had a delicious evening snack.

In case I do not get home in time Julia on her birthday July eighth for me.

Love,

Lee
