When are all your
Betty girl pictures and
calendars?

Dear Lee —

I got your grand long
letter on Sunday morning and
we passed it around the
breakfast table. Maybe you
will get into Lou Goggles
this week-end. Can you
go in swimming anywhere
near there? How far are
you from the Bear?

I'm so glad you wrote
Chauncy Jones a letter. I guess
hey now you've gotten her.
She really was thrilled that
you wrote to her. It means
a lot to her, you know

were giving people rides in
the glider. You had to be
twenty-one or have a writ-
ter consent from your parent.
I didn't know in time or
I would have gone. They
all enjoyed it and I'm
going to go when they do
it again.

Bernie, Charlotte, and I are
all going to the Branderquines
this week. I imagine it will
be good. We all got post-
cards from Miss Dorney the
other day. She is now in
Atlanta, Georgia. She's going
to be an instructor in kite
flying. They've discontinued
teaching that over at the
airport, now. Do you get

We're slowing getting that
roll of film used up. It
has rained just about
every week end for the
past month and that is
about the only time when
we are all together. Ber-
nie sent me the negatives of
some he took of Bernie
and I before he went away
and I'll try to get some
prints taken off.

Yesterday and today they
were picking up gliders
over at the airport. That
is what they do, by the
way. Install units for pick-
ing up gliders in air plane.
It doesn't sound like much
but they have to take al-
most the whole floor. They

any of it is your training?
I imagine you do because you
will need to know how to
fly blind.

Did you get to see Jim Darr
much while you were there?
When did he get sent to?

Charles Mc Keever is going
into tomorrow. There are only
about five boys in our
class now who haven't
gone. They certainly took
them awfully fast, don't
you think?

I'm enclosing a poem I
think you'll like. It's
quite good with its likeness
to the other, don't you think?
I'll be writing again soon,
so until then
lots of love and kisses,
Shirley
